

Clean Cooking Madagascar is now looking for a **MICRO DISTILLERY SUPPORT MANAGER**

### **Job Description**

- Coordinating Micro Distillery project implementation
- Developing and implementing systems that optimize all micro distillery operations
- Providing technical support to several micro distilleries
- Maintaining communications with CCM and Project Gaia representatives
- Producing reports on project progress, feedstock usage and ethanol production (volume and quality)
- Serving as focal person for Project Gaia, providing required data and information relating to the project and national energy policies and markets
- Performing other duties as assigned

### **Qualifications and Skills**

- University degree, preferably in chemical engineering, Process Engineering or related field
- At least two years of manufacturing or production or similar experience a must
- Distillery operation or processing factory experience preferred
- Excellent written and spoken English, Malagasy

### **Additional Requirements**

- Extensive travelling is required, including onsite at micro distillery for longer periods
- Trainings and technical support will be provided
