IN BRIEF...

Clean Cooking Madagascar is an NGO promoting clean renewable energy to households in Madagascar. The primary role is to promote and support the expansion of the Madagascar Ethanol Stove Program and to ensure that all parties involved in this program comply with the program requirements to ensure the highest quality of all aspects of this program. The goal of this program is to have 100,000 ethanol stoves distributed to households in Madagascar by 2020. These are cost effective initiatives that will ensure A BETTER LIVING for households in Madagascar while at the same time have a great development value for Madagascar as a whole. Please note that the Madagascar Ethanol Stove Program is a private initiative, all the partners of the program however have to comply with Malagasy Government Regulations.

World Bank mission in Madagascar

The Senior Social Marketing Specialist from the World Bank in Washington DC visited Madagascar in the first week of October in order to bring support to the Madagascar Ethanol Stove Program. During her visit in the country, Jacqueline Devine organized a workshop on behalf of Clean Cooking Madagascar, where she explained about social marketing and behavior changes. Around

twenty stakeholders of the program came to attend this workshop and they were so interested in the focus of the discussion.

Malagasy Government said they will clarify rules related to production and sales of bio-ethanol fuel.

Through the World Bank mission to Madagascar, they tried to cooperate with Malagasy Government in order to clarify rules related to production and sales of bio-ethanol fuel in Madagascar. Malagasy Government said they will clarify rules related to production and sales of bio-ethanol fuel in Madagascar.

Local Project Implementation Partners (LPIP). Both sessions gathered around fifty potential partners interested in the program. Throughout this workshop, Clean Cooking Madagascar explained about the the upcoming request for Tender for partnership with Pilot Micro Distillery, this request is open for anyone who wants to be a shareholder of this pilot distillery, which will be implemented in the beginning of 2017 in Madagascar. Anyone who wants to be part of the program can also sign a contract with Clean Cooking Madagascar in order to become our Local Project Implementation Partner.

Clean Cooking Madagascar is now hiring a process engineer to provide technical support to certified micro distilleries.

This person will get a training from GAIA which had supported the setting up of several micro-distilleries around the world. His or her main role will include giving technical support to future micro-distilleries to be set up in Madagascar. To download the job offer, please click here: http://madagascarethanolstoveprogram.org/pdfs/technical_Coordinator_job-offer-english-french.pdf

Clean Cooking Madagascar gathered its potential partners during a workshop at World Bank offices.

A workshop devoted to potential micro-distilleries and Local Project Implementation Partners has been organized by Clean Cooking Madagascar, in collaboration with the World Bank and GAIA. This workshop was held this Wednesday, October 19, 2016 at the World Bank office in Antananarivo.

The workshop was divided into two major parts. The morning session was devoted to the potential micro distilleries and the afternoon, to

Angovo Man'Eva, a platform for stakeholders in the Ethanol business in Madagascar

As an association for members of stakeholders in the ethanol stove program, Angovo Man'Eva is now looking for new members. The role of Angovo Man'Eva is to support the interest of the stakeholders of the program and hence its members and to promote the Madagascar Ethanol Stove program and encourage more entities to be involved in this program. Angovo Man'Eva is supporting the responsibilities of Clean Cooking Madagascar, including support to micro distilleries and ensuring that all parties in the program comply with the safeguard requirements. For people interested in being members please contact Clean Cooking Madagascar.

Prequalification of potential sites, for microdistilleries who want to be certified.

Clean Cooking Madagascar is now starting the prequalification process for the micro-distilleries that want to be certified. As a reminder, certification allows micro-distilleries to provide ethanol to the partners of the program and it will also help them receive technical support from Clean Cooking Madagascar.

One Pilot micro distillery will be set up in Madagascar in early 2017.

Clean Cooking Madagascar will set up a pilot micro-distillery in early 2017. This pilot micro-distillery will be set up as a joint venture with a local partner. The Expression of Interest for the joint venture is now available, please find it attached or click on this link to download it: http://madagascarethanolstoveprogram.org/pdfs/declaration-preliminaire_micro-distillerie-pilote.pdf
